Leon's Horizon™ speakers are custom built to match the *exact* width and finish of *every* flat-panel TV.

## Horizon™ Series

Horizon Series speakers are available with 3", 4", 5" & 6" drivers in LCR, LR & Center-only configurations.

**In the custom installation industry, one size does not fit all.**

For over 10 years, Leon Speakers has specialized in building the finest high-fidelity on-wall speakers for flat-panel displays. After thousands of successful installations, our experienced customer service department is ready to assist you in choosing the perfect speakers for your client. Simply tell us the make and model of your Plasma or LCD and we'll custom build your speakers in just 3-5 days. **The perfect picture deserves the perfect sound.®**
